

STRONG, SECURE & UNIQUE TEXTURED SURFACE

Having a roof over one's head is one of several basic human necessities. However, at YKGI, we believe we can help you go a step further and have a roof that does not just look good, but is also made to last. How can we do this?

With ColorCoat® EnvioTex™, we can.

Beauty that lasts

ColorCoat® EnvioTex™ is our revolutionary steel product that offers elegant textures with a finish so fine that premium conventional clay roof tiles are given a run for their money. Additionally, EnvioTex™ with its modern colour palette is perfect for contemporary architectural designs that feature stylish, low-pitched and low-gloss finished roofs.

Colour that stays

We have specially engineered EnvioTex™ to have impressive resistance against colour fading. Our ScratchCore™ technology also works in tandem to enhance the scratch resistance of the steel surface, giving greater protection to the finish.

Coolness that comforts

With our advanced HeatBounce™ solar reflectance solution, steel roofs are able to disperse at night the heat absorbed during the day much quicker than conventional clay roof tiles can. This results in cooler, more comfortable interior temperatures.

Structure that saves

(in more ways than one)

EnvioTex™ steel roofs employ a robust interlocking joint structure that not only helps prevent leakages and resultant damage of property, but also resists break-in attempts, helping secure your property further.

Steel roof, due to their lightweight nature, can also reduce structural mass and load design, thereby providing effective results at optimised costs.

You have our word

We offer a product warranty of up to 25 years to signify the confidence we have in our products that are thoughtfully and meticulously engineered for all your roofing design needs.

Assured Quality and Warranty

EnvioTex™ steel comes with a product warranty up to a:

- 25 years warranty* against perforation due to corrosion
- 10 years warranty* against flaking and peeling
- 5 years warranty* against colour fading and chalking

* Warranty terms and conditions apply
