

## X-tra Protection

YKGI takes immense pride in providing innovative, exceptional-quality steel solutions that is efficient and cost effective.

Spectra-X™ pre-painted steel is another of our revolutionary solutions that combines our renowned paint-coating system with the AZ150 aluminium-zinc metallic-coated base steel to provide consistent weathering performance for exterior decking applications.

*Spectra-X™ pre-painted steel.*

## Protection against the elements

The superior AZ150 aluminium-zinc or Z27 Zinc metallic-coated base steel offers excellent level of resistance to corrosion, enabling lower maintenance and longer - lasting “new” appearance as colours are better retained.

## Protection against heat

Our Spectra-X™ steel incorporates the cutting-edge HeatFlex™ solar reflectance technology that helps reduce roof temperatures by up to 3°C (contingent upon the level of insulation, colour, building design, and function), thus producing cooler and more comfortable interiors for occupation.

Spectra-X™’s ability to reflect heat conveyed on it the added benefits of enhancing material durability due to the reduced thermal tension on the steel surface.

## You have our word

At YKGI, we endeavour to go above and beyond our customers’ expectations. Spectra-X™ is a tangible example of our commitment to deliver exceptional quality, and we stand by our discerning standards with a product warranty against manufacturing defects of up to 25 years. So you can accomplish your sustainable building designs with “X”-tra assurance of our long-term support.

### Assured Quality and Warranty

Spectra-X™ steel comes with a product warranty up to a:

- 25 years warranty\* against perforation due to corrosion
- 10 years warranty\* against flaking and peeling
- 5 years warranty\* against colour fading and chalking

\* Warranty terms and conditions apply

*D'Buaya Warehouse - Port Klang Free Zone - Cladding.*

*IPG Kampus Pendidikan Teknik - Labu, Negeri Sembilan - Roofing.*
